Lyndeborough, NH Hazard Mitigation Plan Update

The Town of Lyndeborough, in conjunction with the Nashua Regional Planning Commission, is in the process of updating its Hazard Mitigation Plan. We strongly encourage all residents, members of the business community, and other interested individuals to participate in the update process.

The Lyndeborough Hazard Mitigation Plan Update will examine changes in development and mitigation priorities that have occurred since the 2021 Plan. It will also address natural hazards in the Town, previous occurrences of these hazards, the probability of future hazard events, and the vulnerability of Lyndeborough's critical facilities to these hazards. The Plan will conclude by identifying and prioritizing mitigation actions to reduce Lyndeborough's vulnerability to natural hazards.

You can stay informed by visiting the NRPC Hazard Mitigation webpage at https://nashuarpc.org/planning_services/hazard_mitigation/index.php, and navigating to the "Plan Updates in Progress" dropdown menu to find all materials related to Lyndeborough. The webpage will be updated throughout the planning process and includes meeting times, locations, agendas, and updated documents. For additional information or to participate in the Plan update, please contact me at cassiec@nashuarpc.org or (603) 417-6570 x6567.

All the best,
NASHUA REGIONAL PLANNING COMMISSION
